

Project Design Phase Solution Architecture

Date	23 June 2025
Team ID	LTVIP2025TMID55634
Project Name	Booknest: Where StORIES Nestle
Maximum Marks	4 Marks

Solution Architecture:

Solution Architecture is a strategic process that connects business challenges with appropriate technological solutions. It involves multiple layers of planning and design to ensure alignment between organizational needs and system capabilities. The primary objectives include:

- Identifying the most effective technology to address current business problems.
- Communicating the software's structure, functionality, and behavior to key stakeholders.
- Defining core features, development stages, and technical requirements of the solution.
- Establishing clear guidelines and specifications for designing, managing, and delivering the solution effectively.
